PROFILE

Product designer specializing in UI/UX for mobile and web. I work end to end research, user flows, wireframes, interface design, and the design systems that hold them together. I come from visual communication, and bring craft from graphic design, branding and fine art into digital product work. I design across Arabic, Hebrew and English, with particular attention to how interfaces behave in both reading directions.

DIGITAL PRODUCT DESIGN

Academic and self-directed projects — Shenkar College | 2022 – 2026

- Designed interfaces and user experiences for mobile apps and responsive websites
- Carried projects through the full process: research, user flows, wireframing, prototyping and final UI
- Built reusable component libraries and design systems in Figma

EXPERIENCE

Brand Designer — ALNHDA | 2026

Sole designer for a fashion project that releases work in drops

- Built the full visual identity and a fixed/variable system separating permanent brand elements from drop-specific ones
- Designed packaging, print collateral and drop campaigns end to end

Packaging Designer — Freelance | 2026

- Designed a seven-piece packaging system for a coffee brand, including cups in three sizes, take-away carrier, crepe wrap and food bags

Founder & Designer — Handmade Candle Brand | 2021 – 2024

- Created a line of hand-poured candles from natural materials
- Built the brand identity, packaging and online presence

Art Instructor — Freelance | 2021 – 2024

- Designed and led creative workshops for children ages 5–12

EDUCATION & TRAINING

B.A. Visual Communication — Shenkar College | 2022 – 2026

Specialization in digital product design. Final project: a digital platform exploring Islamic Arabic calligraphy and its regional scripts.

Art Instruction Certificate — Oranim College | 2021

Training programme in teaching art: lesson planning, creative facilitation and working with children.
